SECTION 4. FIRST AID MEASURES

First aid procedures

General advice:  Get medical attention immediately if symptoms occur. Treat symptomatically.

If inhaled:  If inhaled, remove to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration.

In case of skin contact:  Remove contaminated clothing. Wash thoroughly with soap and water for at least 20 min. or until material is removed. Wash contaminated clothing before re-use. Get medical attention if irritation develops and persists.

In case of eye contact:  If easy to do, remove contact lens, if worn. Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Seek medical advice.

If swallowed:  Do NOT induce vomiting. Gently wipe or rinse the inside of the mouth with water. Obtain medical attention.

SECTION 5. FIREFIGHTING MEASURES

Flammable properties

Flash point:  > 200.1 °F (> 93.4 °C)
Fire fighting

Suitable extinguishing media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Further information: Use water spray to cool unopened containers.

Protective equipment and precautions for firefighters

Specific hazards during firefighting: Do not use a solid water stream as it may scatter and spread fire.

Special protective equipment for firefighters: In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions: Ensure adequate ventilation. Use personal protective equipment.

Environmental precautions: Prevent spilled material from entering the ground, water and/or air by using appropriate containment methods.

Methods for containment / Methods for cleaning up: Soak up with inert absorbent material.

Additional advice: Dispose of promptly.

SECTION 7. HANDLING AND STORAGE

Handling

Handling: Use only in accordance with our recommendations.

Advice on protection against fire and explosion: Keep away from open flames, hot surfaces and sources of ignition.

Storage

Requirements for storage areas and containers: Keep container tightly closed in a dry and well-ventilated place.

Further information on storage conditions: Store between 4°C - 37°C (40°F – 100°F)
