## 2. Hazards Identification

Aerosol. EXTREMELY FLAMMABLE
CONTENTS UNDER PRESSURE. Will be easily ignited by heat, spark or flames. Irritating to eyes. Prolonged exposure may cause chronic effects.

Skin contact. Ingestion.
Contact with eyes may cause irritation.
Prolonged or repeated contact can result in defatting and drying of the skin which may result in skin irritation and dermatitis (rash).
Intentional misuse by concentrating and inhaling the product can be harmful or fatal. Prolonged inhalation may be harmful.
Exposure by ingestion of an aerosol is unlikely. May cause delayed lung damage. Components of the product may be absorbed into the body by ingestion.
Central nervous system. Lungs.
May cause central nervous system disorder (e.g., narcosis involving a loss of coordination, weakness, fatigue, mental confusion, and blurred vision) and/or damage. May cause delayed lung damage. Prolonged skin contact may defat the skin and produce dermatitis.
Signs and symptoms

Discomfort in the chest. Narcosis. Defatting of the skin. Irritation.
3. Composition / Information on Ingredients

| Components | CAS \# | Percent |
| :--- | :---: | :---: |
| Cyclohexane | $110-82-7$ | $30-40$ |
| n-Butane | $106-97-8$ | $15-20$ |
| Dimethyl Ether | $115-10-6$ | $10-15$ |
| Propane | $74-98-6$ | $10-15$ |
| Isobutane | $75-28-5$ | $8-10$ |
| Non-hazardous and other components below reportable levels |  | $10-20$ |

## 4. First Aid Measures

First aid procedures

## Eye contact

$\begin{array}{ll}\text { Skin contact } & \begin{array}{l}\text { Immediately take off all contaminated clothing. Wash off with warm water and soap. Get } \\ \text { medical attention if irritation develops or persists. }\end{array} \\ \text { Inhalation } & \text { Move to fresh air. If symptoms persist, get medical attention. }\end{array}$
Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops or persists.

If material is ingested, immediately contact a poison control center. Have victim rinse mouth thoroughly with water. Do not induce vomiting without advice from poison control center. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Do not use mouth-to-mouth method if victim ingested the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device.
ne Symptoms may be delayed.

## 5. Fire Fighting Measures

## Flammable properties

## Extinguishing media

Suitable extinguishing media
Protection of firefighters
Specific hazards arising from the chemical
Protective equipment and precautions for firefighters

Vapor or gas may spread to distant ignition sources and flash back. Runoff to sewer may cause fire or explosion hazard.

Foam. Dry chemical. Carbon dioxide (CO2). Do not use water jet. Water may be ineffective.

Fire may produce irritating, corrosive and/or toxic gases.

In the event of fire and/or explosion do not breathe fumes. Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask. Containers should be cooled with water to prevent vapor pressure build up. For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible, withdraw from area and let fire burn.

## 6. Accidental Release Measures

Methods for containment

Methods for cleaning up

Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Stop the flow of material, if this is without risk. Prevent entry into waterways, sewers, basements or confined areas.
Should not be released into the environment. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean contaminated surface thoroughly.

## 7. Handling and Storage

## Handling

## Storage

Pressurized container: Do not pierce or burn, even after use. Do not handle or store near an open flame, heat or other sources of ignition. Do not smoke while using or until sprayed surface is thoroughly dry. Do not use if spray button is missing or defective. Use only with adequate ventilation. Do not get this material in contact with eyes. Do not get this material in contact with skin. Wear personal protective equipment. Avoid prolonged exposure.
Level 3 Aerosol.
Contents under pressure. Do not puncture, incinerate or crush. The pressure in sealed containers can increase under the influence of heat. Do not handle or store near an open flame, heat or other sources of ignition. Avoid exposure to long periods of sunlight. Store in cool place. Keep in an area equipped with sprinklers. Keep out of the reach of children. Level 3 Aerosol. Do not store, incinerate, or heat this material above 120 degrees Fahrenheit.

## 8. Exposure Controls / Personal Protection

## Exposure limits

ACGIH

| Components | CAS $\#$ | TWA | STEL | Ceiling |
| :--- | :--- | :--- | :--- | :--- |
| Cyclohexane | $110-82-7$ | 100 ppm | Not established | Not established |
| n-Butane | $106-97-8$ | 1000 ppm | Not established | Not established |
| Propane | $74-98-6$ | 1000 ppm | Not established | Not established |
| Isobutane | $75-28-5$ | 1000 ppm | Not established | Not established |

OSHA

| Components | CAS $\#$ | TWA | STEL | Ceiling |
| :--- | :--- | :--- | :--- | :--- |
| Cyclohexane | $110-82-7$ | 300 ppm | Not established | Not established |
| Propane | $74-98-6$ | 1000 ppm | Not established | Not established |

Personal protective equipment

| Eye / face protection | Wear chemical goggles. |
| :--- | :--- |
| Skin protection | Wear appropriate chemical resistant clothing. Protective gloves. |
| Respiratory protection | When workers are facing concentrations above the exposure limit they must use <br> appropriate certified respirators. If permissible levels are exceeded use NIOSH <br> mechanical filter / organic vapor cartridge or an air-supplied respirator. |
|  | mis |

## 9. Physical \& Chemical Properties

| Appearance | Compressed liquefied gas. |
| :--- | :--- |
| Boiling point | $64.4^{\circ} \mathrm{F}\left(17.8^{\circ} \mathrm{C}\right)$ estimated |
| Color | Tan. |
| Density | $0.6689 \mathrm{~g} / \mathrm{cm} 3$ estimated |
| Flammability (HOC) | $42.4775 \mathrm{~kJ} / \mathrm{g}$ estimated |
| Flash back | Yes |
| Flash point | $-156^{\circ} \mathrm{F}\left(-104.4^{\circ} \mathrm{C}\right)$ Propellant |
| Form | Liquid. Aerosol. |
| Freezing point | Not available |
| Odor | Solvent. |
| pH | Not applicable |
| Physical state | Liquid. |
| Pressure | $55-75 \mathrm{psig} @ 70 \mathrm{~F}$ |
| Solubility | None |
| Specific gravity | 0.669 |

## 10. Chemical Stability \& Reactivity Information

Chemical stability
Conditions to avoid
Hazardous decomposition products No hazardous decomposition products are known.

## 11. Toxicological Information

Acute effects
Acute LD50: 5244 mg/kg estimated, Rat, Dermal
Component analysis - LD50
Toxicology Data - Selected LD50s and LC50s
Cyclohexane 110-82-7
Dimethyl Ether 115-10-6
Isobutane 75-28-5
n-Butane 106-97-8
Propane $74-98$
Sensitization Not expected to be hazardous by OSHA criteria.
Teratogenicity Not expected to be hazardous by OSHA criteria.

## 12. Ecological Information

Ecotoxicity
Components of this product are hazardous to aquatic life.
LC50 11.98 mg/L, Fish, 96.00 Hours,
IC50 1322 mg/L, Algae, 72.00 Hours,

## 13. Disposal Considerations

## Waste codes

D001: Waste Flammable material with a flash point <140 F

## 14. Transport Information

Department of Transportation (DOT) Requirements
Basic shipping requirements:
