California Prop 65: This product does NOT contain an ingredient(s), above the safe harbor limits, which are known to the state of California to cause cancer, birth defects, or other reproductive harm.

HAZARDS DISCLOSURE: This product does NOT contain known hazardous materials as defined by the OSHA Hazard Communication Standard 29 CFR 1910.1200.
4. FIRST AID MEASURES

INHALATION FIRST AID: Remove to fresh air. If continuing to have breathing problems seek medical attention.

SKIN CONTACT FIRST AID: Wash with soap and water.

EYE CONTACT FIRST AID: Flush eyes with large amounts of water until irritation subsides. If irritation persists, get medical attention.

INGESTION FIRST AID: Not applicable.

STATEMENT OF PRACTICAL TREATMENT: Always have plenty of water available for first aid. Get medical attention if any symptoms develop or persist.

5. FIRE FIGHTING MEASURES

FLAMMABLE PROPERTIES: Possible Combustible Dust.

AUTO IGNITION TEMPERATURE: 390 °C (750 °F)

FLASH POINT: Not applicable

FLAMMABLE LIMITS IN AIR, % by Volume: lel: NA;uel: NA

EXTINGUISHING MEDIA: Dry chemical, foam, carbon dioxide, or water fog.

FIRE & EXPLOSION HAZARDS: Minimum ignition temperature of dust cloud – approximately 390°C. Minimum energy to ignite cloud by electrical spark – approximately 0.10 joules.

SPECIAL INFORMATION:
In the event of a fire, wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode. Carbon monoxide and carbon dioxide will be released if this product is involved in a fire.

6. ACCIDENTAL RELEASE MEASURES

SPILL AND LEAK PROCEDURES: Normal precautions for "nuisance dust" should be observed. Avoid prolonged inhalation of dust. Sweep up or vacuum up and place in suitable container for disposal. Waste disposal should be in accordance with existing Federal, State and Local environmental regulations.
7. HANDLING AND STORAGE

RECOMMENDED STORAGE CONDITIONS:
Storage Temperature: Ambient

Special Sensitivity: No special sensitivity.

Storage: Store in a clean, dry, well ventilated warehouse away from odorous materials.

Ventilation Requirements: General

Sensitive to Static Electricity: Yes

Sensitive to Mechanical Impact: No

SHELF LIFE: See Label on packaging.

HANDLING (PERSONNEL): Use good occupational work practices. Observe manufacturer's storing and handling recommendations.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

AIRBORNE EXPOSURE LIMITS: See Section 3 above.
Starch:  
- ACGIH Time Weighted Average Exposure Limit (TWA): 
10 mg/m3

VENTILATION SYSTEM: A system of local and/or general exhaust is recommended to keep employee exposures below the Airborne Exposure Limits. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at its source, preventing dispersion of it into the general work area. Please refer to the ACGIH document, Industrial Ventilation, A Manual of Recommended Practices, most recent edition, for details.

PERSONAL RESPIRATORS (NIOSH APPROVED): If the exposure limit is exceeded, a particulate filter respirator (NIOSH type N95) may be worn.

RESPIRATORY PROTECTION: Airborne concentrations should be kept to lowest levels possible. If dust is generated and the occupational exposure limit of the product is exceeded a particulate filter respirator (NIOSH type N95) is required.

GLOVE REQUIREMENTS: Gloves are recommended due to possible irritation.

CLOTHING REQUIREMENTS: Not Applicable.

EYE PROTECTION: Safety glasses recommended to prevent eye contact.
