GANS BLANKET REVIVE

BLANKET CONDITIONER and REJUVINATOR
ITEM NUMBER S-1850

***GANS LOW-ODOR ALTERNATIVE SOLUTION
FOR HIGHER QUALITY OFFSET TRANSFER!***

Gans ***Blanket Revive*** is our signature blanket conditioner. With one pass of the blanket, all dried gum, old ink pigment, paper glaze, and offset powder can be easily removed. Gans ***Blanket Revive*** will extend the life of your blanket by adding plasticizers to the rubber that your conventional solvents can remove.

***Experience LOWER dot gains, BETTER ink transfer and
LONGER blanket life with overall higher print quality
by using Gans BLANKET REVIVE!***

BENEFITS

- Reduces the tack of the printing blanket surface for a quicker release.
- Completely rejuvenates the printing blanket surface.
- Lower odor than most conventional rubber rejuvenators.

DIRECTIONS FOR USE

As a Blanket wash:

Saturate the rag or cloth and proceed to clean the blanket in a side to side motion while allowing the product to condition the intended rubber surface.
