Gans AUTOWASH 39L.A. is a Low V.O.C., water miscible solvent that has been designed to function within automatic wash systems. This product has excellent ink cutting abilities while at the same time maintaining a low odor and a moderate evaporation rate.

**Gans AUTOWASH 39L.A.: A POWERFUL ink cutting solvent that is SAFE for sensitive distribution lines in your press!**

**BENEFITS**

- Designed for all automatic wash up systems.
- Removes inks, paper coatings, and gum glaze during the wash up.
- Reduced V.O.C. Ratings (3.9 lbs. Per gallon).

**DIRECTIONS FOR USE**

**As a Blanket wash:**
Apply Gans **AUTOWASH 39L.A.** to a cloth or rag. When saturated to satisfaction, proceed with cleaning the blanket in a side to side motion. Apply a dry rag or cloth to the blanket to assist in removing any solvent residues from making contact with the plate prior to proceeding to print.

**As a Roller wash:**
Apply Gans **AUTOWASH 39L.A.** to the roller train. Allow the product to emulsify the ink, adding more if needed. Engage the wash up device to extract all wash / emulsified ink from the rollers. A final water rinse may be necessary.

**In Automatic wash systems:**
Consult with your local Gans technical representative or press manufacturer for appropriate wash settings.

**Note:** This product is not SCAQMD Rule 1171 compliant for Volatile Organic Compounds in Los Angeles, Orange, Riverside, and San Bernardino Counties, CA.
