## ***GANS POWER CLENE UV***

***BLANKET AND ROLLER WASH FOR U.V. AND E..B. INKS  
FOR USE IN MANUAL AND AUTOMATIC BLANKET APPLICATIONS***

***ITEM NUMBER S-1847***

***AVAILABLE IN GALLONS, PAILS, AND DRUM PRESENTATIONS***

***Gans Ink & Supply Company strives hard to provide only the highest quality in our finished products. The pressroom supply division has become an ever-increasing part of our business with the UV Printer in mind.***

***Power Clean UV*** was formulated to cut through the most difficult of U.V. and or E.B. pantone colors with ease. This particular solvent allows for deep cleaning of the rollers without any detrimental affects of the rubber surfaces of blankets or rollers. This product contains a unique blend of components that are low in odor and non aggressive to press seals or lines when used in automatic blanket or roller reservoirs therefore suitable of automatic blanket and roller units.

### **ADVANTAGES**

- Effectively removes U.V. and E.B. inks.
- Non-harsh to EPDM rubber compounds.
- Low to Mild odor.
- Moderate evaporation rate level.
- Will not leave oily residues inhibiting ink transfer.

### **DIRECTIONS FOR USE**

**For use as a Roller Wash:** Pour a liberal amount over the inking rollers. Allow the solvent to work into the roller train emulsifying the ink and attach the wash up device. Add more if needed until desired results are achieved.

**For use as a Blanket Wash:** Pour a liberal amount on a clean shop towel. Wipe the entire blanket surface in a side-to-side motion.

**Automatic Blanket Roller and Roller Wash:** Consult with your local Gans Technical representative for the appropriate settings for your press.

**Note:** This product is not SCAQMD Rule 1171 compliant for Volatile Organic Compounds in Los Angeles, Orange, Riverside, and San Bernardino counties, CA.
