LC Quickset 4-Color Process Inks

LC Quickset 4-Color Process Inks deliver all the advantages of competing quickset inks, but at more affordable prices. LC Quickset Inks have shown fast set speeds and dry times under aqueous coating on coated stocks and board stocks. Due to their quick set speeds, jobs printed with LC Quickset Process Inks can be run with higher loads at the delivery. LC Quickset 4-Color Process Inks are the perfect fit for printing five to eight-color jobs on high-speed multi-colored presses under aqueous coatings – especially when cost is a factor.

LC Quickset Inks have these properties:

- ❖ Quick set speeds
- ❖ Excellent blanket, fountain and roller stability
- ❖ Dries to a firm hard film
- ❖ Stay open in the can and fountain is 6-7 days depending upon ambient conditions

LC Quickset 4-Color Process Inks are finishing friendly including foil stamping, aqueous coating, Krystal Kote and UV coatings. This series is considered laser-safe, but pre-testing is required.

**Gans always recommends pre-testing before submitting a production job to coating, laminating, foil stamping, embossing, laser imprinting, or any other post-printing process.*

<u>Ink Number</u>	<u>Description</u>	<u>Tack</u>
A128795	LC Quickset Process Black	14.5
A128796	LC Quickset Process Cyan	14.0
A128797	LC Quickset Process Magenta	13.0
A128798	LC Quickset Process Yellow	11.5

All tack readings are @ 1200 RPM, 1 minute 90° Fahrenheit, Thwing Albert 101 Inkometer.
