## ***GANS DEEP KLENE***

**ROLLER CLEANER AND CONDITIONER**

ITEM NUMBER S-1833

***A roller cleaner that protects and conditions your entire ink train!***

Gans ***DEEP KLENE*** is a super-concentrated roller cleaner and conditioner used for the cleaning of ink rollers. This product is ideal for extreme color washes, or when having to change from dark colors to lights.

***Your expensive press needs a DEEP KLENE only Gans can provide! Improve print performance while PROTECTING and PRESERVING your rubber rollers!***

When used regularly, Gans ***DEEP KLENE*** will add plasticizers to the rubber rollers that conventional roller washes leach out through repeated wash-ups. Gans ***DEEP KLENE*** will effectively remove gum glaze, paper glaze, deep ground-in ink pigment and friction glaze from the roller train.

### **KEY BENEFITS**

- Most effective when used regularly, such as when changing colors.
- Reconditions and rejuvenates rubber rollers with every application.
- More effective than other harsher chemicals.
- Unlocks and removes dried ink pigment and vehicle deposits.
- Dramatically improves ink transfer within the roller train.

### **DIRECTIONS FOR USE**

#### ***SHAKE WELL BEFORE USING***

Rinse off the inking rollers with an appropriate cleaning solvent, such as Gans ***Autowash 642L.A.*** or Gans ***Aqua Wash***. Disengage the wash-up device or wash-up blade and apply Gans ***DEEP KLENE*** to the inking rollers, allowing it to work into the roller train for two to three minutes. Engage the wash-up device or wash-up blade and reapply wash or water until the rollers appear clean.
